NINETEENTH ANNUAL REPORT

FROM

THE REGISTRAR GENERAL, ON VITAL STATISTICS.

---

Presented to both Houses of Parliament, by Command.

---

SYDNEY:  
THOMAS RICHARDS, GOVERNMENT PRINTER, PHILLIP-STREET

1875.

1875.

## VITAL STATISTICS.

THE REGISTRAR GENERAL to THE HONORABLE THE COLONIAL SECRETARY,

TRANSMITTING ABSTRACTS OF

## MARRIAGES, BIRTHS, AND DEATHS,

FOR THE YEAR 1874,

WITH PREFATORY REPORT.

Registrar General's Office,  
Sydney, 1 June, 1875.

SIR,

I have the honor to forward the Returns of Births, Marriages, and Deaths, for the year ended 31st December, 1874.

Before I proceed to make any comment on these Statistics, I take this opportunity of calling Present state of the Marriage Laws. attention to the Marriage Law of the Colony, which is universally admitted to be in a very unsatisfactory state. Either some extensive amendments should be made or an entirely new system adopted. For my own part I should prefer the latter alternative, and advise that the civil contract should be made the legal proof of marriage.

The advantages likely to be gained are, that cases of bigamy and of the marriage of minors and other irregularities would be of much more rare occurrence; that a more correct and therefore more reliable record of marriages would be the result; and that the Government would be in a position to impose a fee which would, to some extent at least, curtail the expense incurred in collecting, arranging, and conserving these records, the cost of which is at present a large charge on the Revenue.

There are at present over 550 Ministers of Religion who are registered in this office for the purpose of enabling them to celebrate marriages, and so far as I can judge they, as a body, carry out the law to the best of their ability. But a great amount of mischief is done if only one of these gentlemen is found who, from feelings of cupidity, or other unworthy motives, makes a business of the marriage ceremony. It can well be assumed that such a one would not be over careful in eliciting all the information which should be procured before celebrating a marriage, the fee probably being the guiding principle of action. Having made these few observations on this question under a sense of its great importance to the community at large, I now pass on to deal with the principal results disclosed by the tables for the year under consideration.

The population of the Colony, which was estimated to amount to 560,275 persons on 31st December, Population. 1873, had increased at the same time of the year 1874 to 584,278, which shows an addition of 24,003 persons, or 4·28 per cent.

The estimated number of the sexes is 321,447 males and 262,831 females. There were, therefore, Sexes. 58,616 more males than females; and their respective proportions per 1,000 will be 550 to 450. The proportion of the increase to the population of males was larger during 1874 than in the previous year. The increment of 26,003 persons to our population is arrived at by the fact that there were 13,526 births over deaths, and that the arrivals by sea exceeded the departures by 10,477. By referring to the statistics of

of the Colony of Victoria I find that with a population of more than 220,000 in excess of New South Wales, the increase in population amounted to 17,945 persons, which is 6,058 under the figures for this Colony. The inference to be drawn from these figures is that since the Census of 1871 there must have been an overland exodus of population from Victoria to New South Wales, and consequently that our population is probably larger than estimated.

Registration.

At the close of the year 1873 the number of names recorded in the Registers amounted to 537,647, which was increased at the corresponding time of the year 1874 by the addition of 39,516 names, bringing up the total to 577,163 names.

Marriage, Births,  
Deaths.

The number of marriages celebrated during the year was 4,343, and there were 22,178 births, and 8,652 deaths registered during the same period.

As compared with the previous year the number of marriages had decreased by 41, the deficiency being 34 in Sydney, 3 in Suburbs, and 4 in Country districts. Of the total number of marriages, the City contributed 28·18, Suburbs 7·21, and Country 64·61. If population be taken into account it will be seen that marriages show an almost yearly decrease since the year 1865, when they stood at 8·90 per 1,000 as against 7·61 for the year under report.

The births registered during the year amounted to 22,178, being 734 in excess of the year 1873. The increase in the City was 56, Suburbs 24, and Country 654. The ratio of births per 1,000 is 38·87, which is a slight decrease on the previous year.

The number of deaths recorded during the year was 8,652, being an increase of 41 on 1873, and at the rate of 15·16 per 1,000 of population, showing an increase of 1·31 on the mortality of the previous year. The rate of mortality for the City was 24·09 per 1,000 as against 21·68 in 1873. The Suburbs rose from 15·16 to 17·56 and the Country Districts from 12·02 to 12·92.

### MARRIAGES.

The Return marked B, now following, shows the number of marriages celebrated by each denomination and by Registrars during the last ten years; and the table next in order gives the increase or decrease per cent. of the total marriages in 1873 and 1874. It will be observed that there is an increase in marriages under the heads—Church of England, Wesleyan, Congregational, Baptist, and German Evangelical;

Evangelical; Roman Catholic shows a large decrease, and the number of Presbyterian Marriages is less than the previous year. Out of 886 Presbyterian Marriages, 362 were celebrated by one Minister belonging to that denomination.

	4,384	4,343	100.00	100.00	3.81	3.81

The number of minors who entered into the marriage state during the year was 105 males and ~~Minors~~ 1,335 females, in all 1,440 persons, or 16.58 of the total number married. The percentage of persons contracting these marriages to total number of persons married in Sydney was 10.49, in Suburbs 16.45, and in Country 19.28.

TABLE of Minors.

	No. of Marriages.	Minors.	
		Male.	Female.
Sydney .....	1,224	26	231
Suburbs .....	313	13	90
Country Districts .....	2,806	66	1,014
	4,343	105	1,335

From a short table given below it will be seen that out of the total number of persons married in the year, viz., 8,686, there were 1,039 or 11.96 who did not sign their names to their marriage certificates. Of this number males numbered 458 and females 581. From the total number of marriages celebrated in Sydney, Suburbs, and Country Districts, the percentage of those who did not sign their names was 10.12, 7.93, and 15.85, respectively. In this respect there is a very slight improvement on the previous year.

Out

Condition.

Out of the total number of persons married in Sydney, 44.89 per cent. were bachelors, 44.16 per cent. spinsters, 5.11 per cent. widowers, and 5.84 per cent. widows. In like order Suburbs show 43.77 per cent., 46.33 per cent., 6.23 per cent., and 3.67 per cent. respectively; and Country Districts 45.83, 44.46, 4.17, and 5.54 per cent. respectively.

BIRTHS.

## BIRTHS.

As before stated, the number of births recorded during the year was 22,178, of which 11,323 were males and 10,855 females, or 51.06 per cent. and 48.94 per cent. respectively. The excess of male to female births is 2.12 per cent.

The increase of births in the year 1874 was 734, which is 460 below the increase of 1873 on the year 1872.

The mean ratio of births per 1,000, for the nine years preceding 1874, is 40.31, while that for 1874 Ratio of births to population. is 38.87. We find that the mean for Sydney stands at 37.64, and for the year at 36.20; the Suburbs 45.81, and for the year 40.80; the Country Districts 40.06, and for the year 39.11. Thus the last year of the decade is lower than the mean of the previous nine years in all the abovenamed divisions.

The number of births registered in the City was 3,121, viz. :—1,628 males and 1,493 females, or Proportion of Sexes. 52.16 and 47.84, respectively. The Suburbs show 2,787 births, viz. :—1,452 males and 1,335 females, or 52.10 and 47.90, respectively; and in the Country Districts we find there were 16,270 births, viz. :—8,243 males and 8,027 females, or 50.66 and 49.34, respectively. The proportion in the excess of male to female births in Sydney and Suburbs is nearly equal, viz. :—4.32 and 4.20, respectively, while in the Country it is reduced to 1.32. All the three divisions show that the largest number of births was recorded in the quarter ended 30th September, and on reference to the Decennial Table of Births this will be found an almost universal fact for the whole period.

The proportion of male and female births to total number of births registered is as follows:—

	Males, per cent.	Females, per cent.
Sydney .....	7.34	6.73
Suburbs .....	6.55	6.02
Country .....	37.17	36.19
 Totals .....	51.06	48.94

## Illegitimate.

There were 935 births of illegitimate children registered during the year, being an increase of 46 on the previous year. The males numbered 462, and females 473. The percentage of these births to total births is 4.21 as against 4.14 in the year 1873. The proportion per 1,000 of population is 1.64 which is about the same as the previous year.

(F.)

DEATHS.

## DEATHS.

The registers of deaths for the year 1874 show that they number 8,652, comprising 5,022 or 58.01 males and 3,630 or 41.96 females, the former exceeding the latter by 1,392 or 16.08 per cent. After deducting the excess of male over female births from these last figures, it will be found that there is a surplus of 924 on the side of the females. The percentage of male deaths is lower, and of female deaths higher than in the previous year. The increase in the number of deaths on the previous year is 1,041, consisting of 423 males and 608 females.

The death rate for the Colony per 1,000 for the year stood at 15.16, while the mean for the previous nine years was 15.26. The City gives 24.09 for the year, and 22.75 for the mean of the preceding nine years; Suburbs 17.56 and 18.54; and Country, 12.92 and 13.19. There was therefore an improvement in the health of the Suburbs and Country Districts, but not in the City.

Out of the total number of deaths, 24.00 were registered in the City; 13.86 in the Suburbs; and 62.14 in the Country.

(G.)

The number of deaths of children under 5 years of age in the Colony was 3,768, which amounts to 43.55 per cent. of the total number of deaths recorded. This is an increase of 5.13 per cent. on the previous year, the mean of the preceding nine years being 43.89. The percentage of these deaths in Sydney was 44.72, which is higher by 4.78 than the previous year. The Suburbs show an infantile mortality of 56.04, which is an increase of 4.89 on the previous year, and slightly lower than the mean for the nine previous years. The percentage for country districts stands at 40.31. Here again is an increase of 4.69 on the previous year, and a shade lower than the mean for the preceding nine years.

(H.)

## Causes of death.

By referring to the percentage table of the causes of death, it will be seen that "Zymotic" diseases contributed 22.38 of the total deaths, being an increase of 4.53 on the previous year, but 1.68 under the mean of the preceding nine years.

Under this class miasmatic diseases alone show 20.09 per cent. The percentage of constitutional diseases is 12.43, which is 62 lower than the year 1873, and 72 higher than the mean of the previous nine years.

The third class, "Local," also shows a decrease on the preceding year, the figures being 40.09 as against 41.56. There is an increase here of 3.39 on the mean of the nine years preceding. Under the "Developmental Class," we find the percentage had decreased from 18.54 to 16.76, which is .76 below the mean of the previous nine years.

I cannot bring this Report to a close without again urging the necessity of Legislative action with regard to an amendment of the Marriage Law. The system which I have recommended for adoption in the beginning of this Report is not a novel one, but has been tried for a number of years on the continent of Europe, and is considered to work satisfactorily.

I have the honor to be,

Sir,

Your obedient servant,

E. G. WARD,

Registrar General.
